

## **GATE OPERATOR CARE & MAINTENANCE TIPS**

- 1: FOR CHAIN DRIVEN GATE OPERATORS, USE A PREMIUM HI-TEMP GREASE TO LUBRICATE THE CHAIN ONCE PER MONTH. THIS CAN BE FOUND AT ANY AUTO PARTS STORE.
- 2: FOR V-TRACK GATES, KEEP TRACK CLEAR OF DEBRIS ONCE PER MONTH, MORE OFTEN IF YOU HAVE A LOT OF TREES YOU MAY NEED TO DO CLEAN TRACK MORE OFTEN.
- 3: PUT MOTH BALL INSIDE GATE OPERATOR BOX TO KEEP CRITTERS AWAY FROM THE ELECTRONICS.
- 4: IF GATE FAILS WHILE IN THE CLOSED POSITION, REMOVE COVER AND LOCATE THE MANUAL RELEASE SWITCH. MOVE SWITCH TO THE OFF POSITION AND OPEN GATE. CALL 813-671-1995 FOR SERVICE.
- 5: FOR SOLAR POWERED OPERATORS. KEEP SOLAR PANEL CLEAN AND CLEAR OF DEBRIS, CLEAN ONLY WITH SOAPY WATER! KEEP TREES AND BUSHES TRIMMED TO ALLOW AS MUCH SUNLIGHT AS POSSIBLE TO HIT SOLAR PANEL.
